

Genetic Nutrition Where Genetic Testing, Lifestyle & Nutrition Counseling Promote Optimal Health!™

www.PhysicianWellnessProgram.com AboutMyDiet.com Wellness Programs, Nutrition Counseling 800-699-8106

As a conservative clinical nutritionist with Masters Degree in Clinical & Sports Nutrition, who set up over 700 physicians nationwide with credible nutrition counseling programs, I have been **looking for an opportunity like this for 19 years**. I think my Lifestyle Nutrition Program combined with DNA genetic testing will be very complimentary with physicians, spas, & consumers nationwide. **I will be concentrating with setting up professional physician accounts nationwide**. I am looking for leaders, businesses, health care professionals, that would like be part of this business direct to consumers or through Physicians, Chiropractors, Personal Trainers & / or Spas for example.

I can discuss with you how you can benefit from the fact that no one else in the world is doing this yet. www.PhysicianWellnessProgram.com, www.AboutMyDiet.com www.Genelinkbio.com

- **The USDA recommends consuming a minimum of 3,000 to 5,000 ORAC units per day.**
- **Eating 8 – 10 servings (½ - 1 cup each) of brightly colored fruits and vegetables or dark greens will help achieve this level.**
- **The ORAC figure suggested by experts is around 5,000 to have a significant effect on plasma & tissue antioxidant levels.**

ORAC stands for Oxygen Radical Absorbance Capacity. This scientific analysis measures an antioxidant's scavenging capacity against free radicals. Free radicals are known to cause cell damage as well as premature aging of cells, which in turn, leads to disease.
