- **The USDA recommends consuming a minimum of 3,000 to 5,000 ORAC units per day.**
- **Eating 8 – 10 servings (½ - 1 cup each) of brightly colored fruits and vegetables or dark greens will help achieve this level.**
- **The ORAC figure suggested by experts is around 5,000 to have a significant effect on plasma & tissue antioxidant levels.**
- **The average custom formula ORAC Value will be 5200 units 9000 units per serving.**

**ORAC** stands for **Oxygen Radical Absorbance Capacity**. This scientific analysis measures an antioxidant's scavenging capacity against free radicals. Free radicals are known to cause cell damage as well as premature aging of cells, which in turn, leads to disease.

***" Most of the cost in the liquid products is the juice not the active ingredient, plus you are getting a lot of unnecessary sugar".***

The benefits of the Broad Spectrum Whole Foods Supplement include:

- **You Save Money** -- you don't pay for product and packaging you don't need – **much better absorption & bioavailability.**
- **You Balance Your Vitamin Intake More Effectively Without Overdosing On One Nutrient, Which Could Be Toxic To Your Body**
- **You Save Time** -- opening one package takes less time than wrestling with multiple bottles and boxes
- **You Save Hassle** -- the Single-Serving Solution is easier for traveling than multiple bottles and boxes
- ***You Don't Waste***-- *you only receive what your body needs. There are no fillers or extra product that moves through your system*
